Not sure how much you may have missed, but we pretty much agreed that we'll move forward with reference check over the next couple weeks using Linda's most up-to-date version of the doc record (and we can go ahead and make suggested changes where we're comfortable that we know what changes need to be made), and that we should be available more at the very end of August and most of September to help get the pkg wrapped up.

If anyone understood differently, chime in!!
